

The Section 106 Process requires federal agencies to consider the potential impacts of their actions on historic properties.

Historic properties include archaeological sites, historic structures, districts, and traditional cultural properties that are listed or eligible for listing in the National Register of Historic Places (NHPA).

Section 106 of the NHPA lays out the process for considering effects to historic properties

- ◆ Initiate the process
- ◆ Identify historic properties
- ◆ Assess adverse effects
- ◆ Resolve potential adverse effects

As part of the Section 106 process, federal agencies **seek public input on:**

- ◆ Identification of historic properties,
- ◆ Ways to avoid, minimize, and/or mitigate impacts on historic properties resulting from federal actions.

You can participate:

- ◆ Request to become a Consulting Party by sending a written request to the address below
- ◆ Use the comment sheet provided at this meeting

Naval Facilities Engineering Command, Pacific
Attn: EV21 HSTT EIS/OEIS Project Manager
258 Makalapa Drive, Suite 100
Pearl Harbor, HI 96860-3134

Thank you for coming. We look forward to receiving your input.

Hawaii-Southern California Training and Testing EIS/OEIS

Potential Effects on Historic Properties

**Submerged
Landing Craft
(LVTP-5)**

**Submerged
PBY Catalina**

Potential Effects

An adverse effect is when an undertaking, such as underwater detonation, may alter characteristics that qualify the property for inclusion in the National Register of Historic Places.

◆ **Effects may include:**

- Physical damage
- Alteration
- Removal
- Intrusive Visual and Audible Elements

◆ **Property types that could be affected include:**

- Building
- District
- Object
- Site
- Structure

The Navy does not anticipate that the undertaking will adversely affect historic properties since the Navy will avoid submerged cultural resources and will not be altering the characteristics of a historic property that qualify the property for inclusion in the National Register of Historic Places.*

Cultural Resources Area of Potential Effects

Protection of the nation's heritage is an essential part of the Department of the Navy mission

Historic properties within the area of potential effects in the Hawaii include:

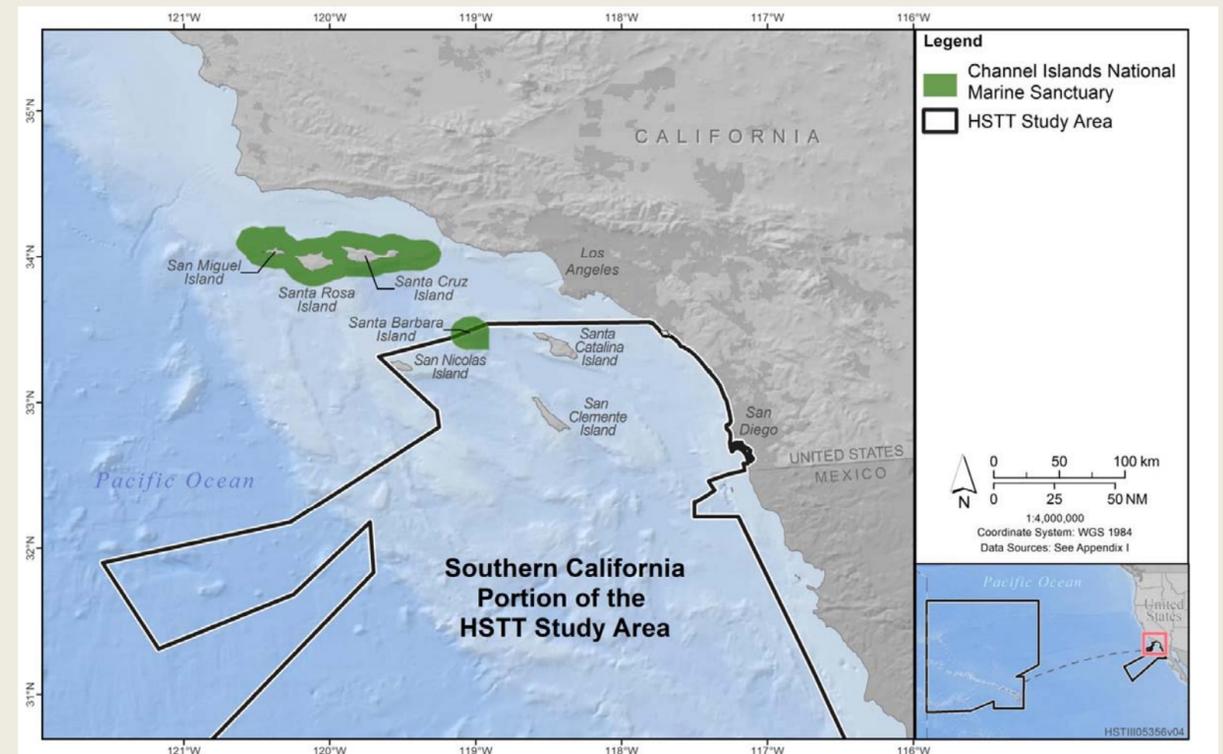

- ◆ National Memorial to the Battle of Midway
- ◆ Pearl Harbor National Historic Landmark
- ◆ Traditional Hawaiian Fishponds
- ◆ Historic shipwrecks and plane wrecks

The area of potential effects marks the geographic extent to which the proposed action may have direct or indirect effects on historic properties.

Historic properties within the area of potential effects near southern California include:

- ◆ PaleoIndian and Archaic period sites on the continental shelf
- ◆ Historic shipwrecks and plane wrecks

If you would like to provide information about cultural resources within the area of Potential Effects, please inform the Navy.
